

Jeffrey Lawrence Garvin, Ph.D.

A. CONTACT INFORMATION

Robbins E526
Department of Physiology and Biophysics
Case Western Reserve University School of Medicine
10900 Euclid Ave.
Cleveland, OH 44106

Voice: 216 368 3353
Fax: 216 368 5586
Jeffrey.garvin@case.edu

B. EDUCATION

1. Undergraduate

University of Miami, Coral Gables, Florida, grad. 1979, B.S. (Biology and Chemistry); magna cum laude and with general honors

2. Graduate/Professional

Duke University, Durham, North Carolina, grad. 1984, Ph.D. (Physiology)

C. POSTGRADUATE TRAINING

National Kidney Foundation Fellow, Laboratory of Kidney and Electrolyte Metabolism, National Institutes of Health, Bethesda, Maryland, 1984-1985.

National Research Service Award, Laboratory of Kidney and Electrolyte Metabolism, National Institutes of Health, Bethesda, Maryland, 1985-1988.

D. FACULTY APPOINTMENTS

2012-present Professor, Department of Physiology and Biophysics, Case Western Reserve University

2004-2013 Professor, Department of Physiology, Wayne State University

1999-2004 Professor, Department of Medicine, Case-Western Reserve University

1995-1999 Associate Professor, Department of Medicine, Case-Western Reserve University

E. HOSPITAL APPOINTMENTS

2009-2012 Division Head, Hypertension and Vascular Research Division, Department of Internal Medicine, Henry Ford Hospital, Detroit, MI.

1991-2012 Senior Staff Investigator, Hypertension and Vascular Research Division, Department of Internal Medicine, Henry Ford Hospital, Detroit, MI.

1988-1991 Associate Staff Investigator, Hypertension and Vascular Research Division, Department of Internal Medicine, Henry Ford Hospital, Detroit, MI.

F. CURRENT PROFESSIONAL SOCIETIES

American Physiological Society

American Society of Nephrology

Council for High Blood Pressure Research, American Heart Association

G. HONORS AND AWARDS

President's Honor Roll, University of Miami

University of Miami Honor Scholarship

Phi Kappa Phi Honor Society

Cellular and Molecular Biology Training Grant (1979-1983)

Grant in Aid, North Carolina Chapter of the American Heart Association (1982, 1983)

Sigma Xi (Grant in Aid of Research)

National Kidney Foundation Fellowship (1984-1985)

National Research Service Award (1985-7 & 1987-8, separate awards)

Lucille P. Markey Fellowship, Mount Desert Island Biological Laboratory

Lewis K. Dahl Lecture, American Heart Association (2005)

H. SERVICE

1. Study Sections and Review Panels

National Institutes of Health, Special Emphasis Panel VH-J Atherosclerosis and Vascular Disfunction, March 2013
National Institute of Diabetes, Digestive and Kidney Diseases, Special Emphasis Panel for Renal Transport Program Projects, February 2013
National Institutes of Health, Molecular Biology of the Kidney and Urogenital Development Study Section, October 2011-June 2015
National Institutes of Health, Special Emphasis Panel DKUS, January 2010
National Institutes of Health, Special Emphasis Panel MABS, February 2010
National Institutes of Health, Special Emphasis Panel DKUS-B02M, December 2009
National Institutes of Health, Special Emphasis Panel VH-B Microcirculation, Hypertension and Atherosclerosis, October 2009
National Institutes of Health, Special Emphasis Panel for Challenge Grants Panel 19, June 2009
National Institutes of Health, Special Emphasis Panel for Challenge Grants Panel 20, June 2009
National Institute of Diabetes, Digestive and Kidney Diseases, Special Emphasis Panel, May 2009
National Institute of Diabetes, Digestive and Kidney Diseases, Special Emphasis Panel for Cellular Signaling and Kidney Function, June 2009
National Institute of Diabetes, Digestive and Kidney Diseases, Special Emphasis Panel for Renal Transport Program Projects, March 2008
National Institutes of Health, Hypertension and Microcirculation Study Section, January 2004-June 2007.
National Institute of Diabetes, Digestive and Kidney Diseases, Special Emphasis Panel for Chronic Kidney Diseases Ancillary Studies, March 2007
National Institute of Diabetes, Digestive and Kidney Diseases, Program Project Grants Special Emphasis Panel, Channels and Kidney Function, July 2004.
National Institute of Diabetes, Digestive and Kidney Diseases, Program Project Grants Special Emphasis Panel, 2003.
National Institutes of Health, Cardiovascular B Study Section, 2003.
National Institute of Diabetes, Digestive and Kidney Diseases, Program Project Grants Special Emphasis Panel, 1998.
American Heart Association National Center, Cardio-Renal Study Section, 1996-1999.
American Heart Association, National Center Affiliate Study Section E, 1995-1996.
National Kidney Foundation of Michigan, Grant Review Committee, 1992-1999. Chairman, 1994-1999.
American Heart Association of Michigan, Grant Review Committee, 1993-1996. Vice-Chairman, 1995.

2. Journal Editorial Activity

American Journal of Physiology: Renal Physiology, editorial board, 1996-2007.
Journal of the American Society of Nephrology, editorial board, 1996-1998.
American Journal of Physiology: Regulatory and Integrative, editorial board, 1998-present.
Hypertension, editorial board, 2002-present.
American Journal of Physiology: Renal Physiology, Associate Editor, 2007-present.

3. National and International Society Committees

American Physiological Society Renal Section Awards Committee, 1993-1996; Co-chairman, 1994; Chairman, 1995-1996.
American Physiological Society Renal Section Steering Committee, 1994-2000.
American Physiological Society Renal Section Program Committee, 1997-2000. Vice Chairman, 1997; Chairman 1998-2000.
American Physiological Society Porter Physiology Development Committee, 1997-2000.
American Heart Association Council for High Blood Pressure Research Fall Conference Programming Committee, 1997-2000.
American Physiological Society Renal Section Steering Committee 2002 – 2005
American Physiological Society Renal Section Treasurer 2002 – 2005
American Heart Association Council for High Blood Pressure Research Newsletter Editor 2004-2007.

American Heart Association Council for High Blood Pressure Research Executive Committee 2004-2007.
American Heart Association Council for High Blood Pressure Research Fall Conference Programming Committee 2007- 2010.

4. Other Professional Service

Case-Western Reserve University/Henry Ford Hospital Working Group on Graduate Education 1995-1996
HFHS Committee on Pre- and Post-doctoral Education
HFHS Research Committee 2003-2006
HFHS Research Space Committee 1999-2004
HFHS Research Capital Equipment Committee 2001-2005
HFHS Department of Internal Medicine Appointments and Promotions Committee 2001-present
HFHS Department of Internal Medicine Resident Research Committee 2000-2004
HFHS-Oakland University Ph.D. Committee 1998-2004
HFHS Salary Management Committee, Consultant on Ph.D. Issues 2000-2001
HFHS Resident Research Forum Judge 2000-2005
HFHS Resident Research Forum Committee Co-Chair 2004-2006

I. TEACHING

1. University Courses

Medical Physiology Conference, Department of Physiology, Duke Univ., 1980
Human Physiology, *Nephron Transport*, Department of Biology, Oakland Univ., fall 1997, team taught.
Human Physiology, *Nephron Transport*, Department of Biology, Oakland Univ, spring 1999, team taught.
Cellular Biochemistry, *Physiology and Biochemistry of Nitric Oxide*, Department of Biology, Oakland Univ., spring 1999, team taught.
Advanced Renal Physiology, Department of Physiology, Wayne State Univ., fall 2003, team taught.
Advanced Biochemistry, Department of Chemistry, Oakland Univ., fall 2004, team taught.
Advanced Biochemistry, Department of Chemistry, Oakland Univ., spring 2005, team taught.
Human Physiology, *Nephron Transport*, Department of Biology, Oakland Univ., spring 2005, team taught.
Advanced Renal Physiology, Department of Physiology, Wayne State Univ., fall 2005, team taught.

b. Henry Ford Hospital Lectures to Fellows and Residents

HFHS Department of Internal Medicine, Division of Nephrology, *NO regulates distal nephron transport*.
HFHS Department of Internal Medicine Research Grand Rounds, *Regulation of distal nephron transport and its role in hypertension*, April 2000.
HFHS Department of Research, *Nitric oxide regulates renal Na and water excretion: Role in hypertension*, October 2001
HFHS Department of Internal Medicine, Division of Hypertension and Vascular Research, *Effects of angiotensin on the proximal nephron*
HFHS Department of Internal Medicine, Division of Hypertension and Vascular Research, *Na transport in tight epithelia*
HFHS Department of Internal Medicine, Division of Hypertension and Vascular Research, *Vasopressin-stimulated water absorption*
HFHS Department of Internal Medicine, Division of Hypertension and Vascular Research, *How to measure ion fluxes*
HFHS Department of Internal Medicine, Division of Hypertension and Vascular Research, *Radiation safety in the laboratory* (1996, 1998)
HFHS Department of Internal Medicine, Division of Hypertension and Vascular Research, *How to present a paper* (1996, 1997, 1999)
HFHS Department of Internal Medicine, Division of Hypertension and Vascular Research, *Seven transmembrane spanning receptors and G proteins*
HFHS Department of Internal Medicine, Division of Hypertension and Vascular Research, *Measurements of intracellular calcium*
HFHS Department of Internal Medicine, Division of Hypertension and Vascular Research, *Gap junctions*
HFHS Department of Internal Medicine, Division of Hypertension and Vascular Research, *Caveolin*
HFHS Department of Internal Medicine, Division of Hypertension and Vascular Research, *Appointments in the research*

institute (December 2001)
HFHS Department of Internal Medicine, Division of Hypertension and Vascular Research, *Aquaporin trafficking* (December 2001)
HFHS Department of Internal Medicine, Division of Hypertension and Vascular Research, *How to present a paper* (January 2002)
HFHS Department of Internal Medicine, Division of Hypertension and Vascular Research, *Modern Research Methods: Initial rate* (June 2003)
HFHS Department of Internal Medicine, Division of Nephrology, *Modern Research Methods* (4 lectures, Summer 2003)
HFHS Department of Internal Medicine, Division of Nephrology, *Modern Research Methods: Northern and Southern Blotting* (August 2004)
HFHS Department of Internal Medicine, Division of Hypertension and Vascular Research, *How to present a paper* (July 2007)
HFHS Department of Internal Medicine, Division of Hypertension and Vascular Research, *Membrane Biology* (July-August 2007, course director)
HFHS Department of Internal Medicine, Division of Nephrology and Hypertension, *How to present a paper* (October 2009)
Case Western Reserve School of Medicine, First Year Medical Student Cardiac Physiology Intermediate Group Facilitator, February 2013

2. Ph.D. Students

Pablo A. Ortiz, University of Buenos Aires, 2002
Marcela Herrera, University of Cordoba, 2006
Guillermo B. Silva-Laciar, University of Cordoba, 2009
Vanessa D. Ramseyer, Wayne State University, current graduate student

3. Postdoctoral Fellows

Barbara A. Stoos, Ph.D.	Luis A. Juncos, M.D.
Nestor H. Garcia, M.D.	Ding Wang, M.D.
Craig F. Plato, Ph.D.	Hong Yu, M.D.
Pablo Ortiz, Ph.D.	Marisela Varela, M.D.
Ramiro Juncos, M.D.	Marcela Herrera, Ph.D.
Ruisheng Liu, M.D., Ph.D.	Pablo Cabral, M.D.

4. National and International Awards Won by Postdoctoral Fellows/Residents/Students

Barbara A. Stoos, Ph.D.
Merck New Investigator Award, Council for High Blood Pressure Research of the American Heart Association 1991
Excellence in Renal Research Award, American Physiological Society 1991
Luis A. Juncos, M.D.
Clinical Investigator Award, Council for High Blood Pressure Research of the American Heart Association 1994
Nestor H. Garcia, M.D.
Merck Latin American Investigator Award, Council for High Blood Pressure Research of the American Heart Association 1995
Hong Yu, M.D.
Excellence in Renal Research Award, American Physiological Society 1996
Craig F. Plato, Ph.D.
Merck Young Investigator Award, Council for High Blood Pressure Research of the American Heart Association 1998
Excellence in Renal Research Award, American Physiological Society 1999
Pablo Ortiz, M.S.
Excellence in Renal Research Award, American Physiological Society 2000
Caroline Tums Professional Opportunity Award, American Physiological Society 2000
Pablo Ortiz, Ph.D.
Young Investigator Award, Inter-American Society of Hypertension 2003
Research Recognition Award, American Physiological Society 2004
Marisela Varela, M.D.

First Place Henry Ford Hospital Resident Research Forum 2003
First Place Henry Ford Hospital Resident Research Forum 2004
Marcela Herrera, M.S.
Caroline Tums Professional Opportunity Award, American Physiological Society 2004
Merck Young Investigator Award, Council for High Blood Pressure Research of the American Heart Association 2004
Excellence in Renal Research Student Award, American Physiological Society 2005
Marcela Herrera, Ph.D.
New Investigator Award, Council on the Kidney in Cardiovascular Diseases of the American Heart Association, 2006.
Excellence in Renal Research Postdoctoral Award, American Physiological Society 2006
American Physiological Society/National Institute of Diabetes, Digestive and Kidney Diseases Minority Travel Award 2007
Epithelial Group Travel Award, American Physiological Society 2008
Research Recognition Award, American Physiological Society 2008
American Physiological Society/National Institute of Diabetes, Digestive and Kidney Diseases Minority Travel Award 2010
Guillermo Silva-Laciari, M.S.
Merck New Investigator Award, Council for High Blood Pressure Research 2005
Caroline Tums Professional Opportunity Award, American Physiological Society 2006
Young Investigator Award, Society for Experimental Biology and Medicine, 2008
Renal Research Recognition Award, American Physiological Society 2010
Pablo Cabral, M.D.
Caroline Tums Professional Opportunity Award, American Physiological Society 2010
Excellence in Renal Research Postdoctoral Award, American Physiological Society 2010
Vanesa Ramseyer, M.S.
Predoctoral Research Recognition Award Water and Electrolyte Section, American Physiological Society 2011

5. Course Development

Wayne State University, Department of Physiology, Departmental Graduate Committee (admissions, qualifying exams and graduate student progress review). 2006-2012
HFHS Department of Internal Medicine, Division of Hypertension and Vascular Research Journal Club and Seminar Coordinator, 1995-2006
HFHS Department of Internal Medicine, Division of Hypertension and Vascular Research, Blood Pressure Regulation, Course Director, Spring 1997
HFHS Department of Internal Medicine Research Grand Rounds, Coordinator 2000-2004
HFHS Department of Internal Medicine, Division of Hypertension and Vascular Research, Membrane Biology Course Director, Summer 2007

J. CURRENT GRANT SUPPORT

National Institutes of Health, PO1. Project Leader, Project 1 of Program Project Grant: regulation of NOS activity in the kidney and hypertension (5 years, 4/2009-3/2014).
National Institutes of Health, RO1. Principal Investigator: Salt-sensitive hypertension: Role of renal O₂⁻ (4 years, 10/2011-12/2015).
National Institutes of Health, PO1. Project Leader, Project 4 of Program Project Grant: Salt-Sensitive Hypertension: Role of Thick Ascending Limb Angiotensin II (5 years, 2/2013-1/2018).
